CONNECTING PEOPLE & JOBS

September 2016

Michelle

Russell

Graduate Spotlight

Michelle had been unemployed for 7 months. She was looking for a quality work opportunity that offered flexibility for her to attend evening classes, one that she could do with a physical disability, and one that would provide for her family. Michelle really wanted a job with a company where she could grow and advance professionally. After graduating the Digital Works program, she quickly secured the job that fit all her needs.

Employer Spotlight

The holiday season is right around the corner and a Fortune 500, online shopping company is looking for seasonal work-at-home customer service representatives. This company offers:

- Full-time employment with the possibility of up to 20 hours OT/week
- W2 employment
- Bonuses and incentive pay
- Paid training
- Potential long-term employment

Graduate Spotlight

Russell had read about Digital Works in a local Columbus, Ohio, newspaper article and felt the flexibility a work-from-home opportunity offers, along with his past experience and professional drive, would be an ideal fit. In July, Russell was hired with MaritzCX to conduct marketing research. He really enjoys the monetary bonuses and perks that come with the position, and he's setting his sites on advancing with the company.

Digital Works, Boot Camp Style

Digital Works' first online careers boot camp took place this month. Boot camps are specifically designed for young adults in Franklin County that already possess computer skills and are motivated to train and be placed in a job quickly.
